

UTILITY DECK

PATENT PENDING

**INDUSTRY'S FIRST LOAD BEARING BED COVER
WITH SIDE BOXES AND A UTILITY GATE!**

HIGHWAY PRODUCTS

AMERICAN MADE SINCE 1980

INTRODUCING THE UTILITY DECK

HIGHWAY PRODUCTS UTILITY DECK IS THE INDUSTRY'S FIRST
LOAD BEARING BED COVER WITH UTILITY BOXES AND
A UTILITY GATE, CREATING THE ULTIMATE
ALTERNATIVE TO A SERVICE BODY.

With the secure storage beneath the cover combined with the compartment boxes, there is over 2.5X as much secure storage compared to a long bed single rear wheel service body. And, you still have deck space for materials, equipment, and tools!

THE UTILITY DECK COMES **LOADED WITH STANDARD FEATURES.**

The **2000-pound load-rated diamond plate deck** with a slam shut **Utility Gate** provides storage for equipment, tools and materials. A **hex-punched headache rack** protects your cab, provides visibility, and keeps your cab cooler. The **double e-track** positioned high and low runs the entire length of the interior of the compartment boxes and delivers versatile tie down points and other e-track accessories like ladder hooks or storage bins.

Similar to a Bed Cover, when the tailgate of your truck is locked, it creates **secure storage beneath the deck** with the flexibility for customized organization. The **two double lift-door high side utility boxes** positioned on the deck each include an adjustable shelf for even more storage options.

Take the Utility Deck to the next level by selecting from additional choices like a **cargo rack** for overhead storage, **tool drawers** in the utility boxes, and a **Truck Slide** on the floor of the truck bed to easily pull out and access the stored contents.

PROBLEMS SOLVED.

STRUGGLING TO FIND A TRUCK?

With supply chain issues plaguing auto manufactures, procuring work class trucks, particularly cab and chassis trucks, has been harder than ever. Between trucks being unavailable altogether, or having lengthy lead times, getting trucks to put to work is becoming a problem for everybody. The Utility Deck can be installed on any full size pickup truck, even F150's. Pickup truck availability, while not great, is still plentiful across the country. If you need to get a service truck on the road, a Utility Deck can solve for your storage needs quickly.

NOT ENOUGH SECURE STORAGE IN A SERVICE BODY?

Have you found that the compartment boxes on a cookie cutter service body don't supply enough secure storage for your valuable tools and equipment? The Utility Deck has 2.5 X as much secure storage when comparing a 56 CA SRW against a long bed pickup with a Utility Deck.

NEED HIGH VOLUME STORAGE ON LOW GVWR VEHICLE?

With government regulations costing time and money, many fleets are starting to look for low GVWR options for their work trucks. The Utility Deck can be installed on F150's and other half-tons, putting service trucks on the road to the job site, and out of the weigh stations.

NEED MORE ORGANIZATION THAN A CANOPY DELIVERS?

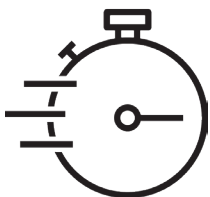

Commercial Canopies are a great option for pickup trucks that need higher volume secure storage needs, but can often be difficult to organize and tough to access the tools you need. Utility Decks have lots of secure storage beneath the deck that can be accessed easily with a truck slide, and above the deck storage for all those other things you need to throw in, like shovels, materials, water coolers and lunch boxes.

IS VEHICLE INSTALL DOWN TIME COSTING YOU TOO MUCH?

When work trucks are in the shop, they're not producing value. How much opportunity loss is your fleet experiencing with vehicle installation down time alone? The Utility Deck can be installed in under two hours! Get your fleet to the job site and out of the garage.

WHY THROW AWAY ASSETS LIKE SERVICE BODIES

Utility bodies have often been considered a disposable tool. But why throw money away when you don't have to? The Utility Deck is designed to last beyond the retirement of your vehicles. And, you can easily transfer from one truck to the other in hours, even while leaving your tools in the compartment boxes. Did we mention down time reduction already?

2HR

THE 2-HOUR NO-DRILL INSTALL CAN CHANGE THE GAME FOR YOUR FLEET.

Reduce down-time, save money on installs, and say goodbye to disposable service bodies because the Utility Deck can be easily transferred from one truck to another – you don't even need to take your tools out.

One person and a forklift can get the job done in less than a couple hours, and you won't need to drill a single hole in your factory bed.

DURABLE WHITE FINISH

The Utility Deck comes standard with a powder coat white finish to enhance the overall look of the product and add an extra layer of protection to the already corrosion resistant aluminum.

UTILITY BOXES

Easy access, secure storage for smaller tools, fittings, materials, or any gear you want roadside or curbside access to.

The Adjustable Shelves included in each compartment allow you raise and lower them to better fit specific items.

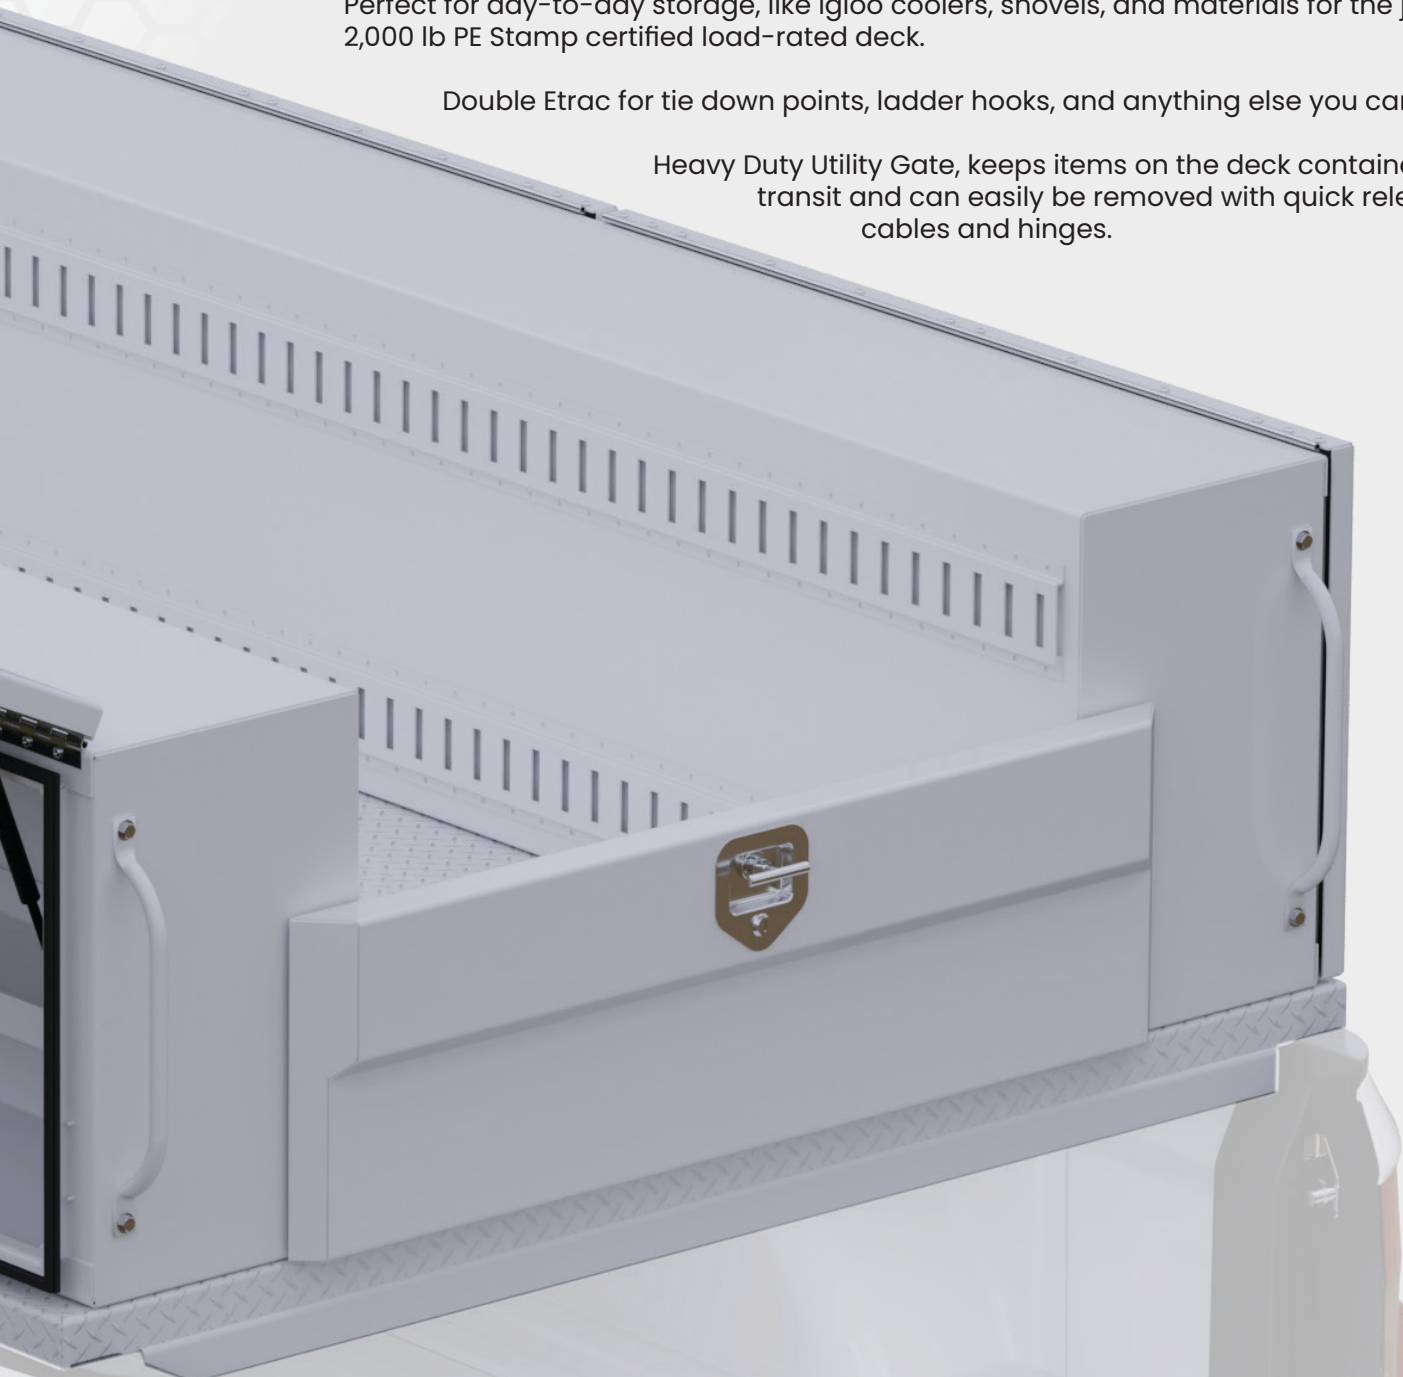

Grab handles on rear face for better access to items stored on the deck. Access panels in front boxes to reach front turnbuckles for mounting.

ABOVE DECK STORAGE

Perfect for day-to-day storage, like igloo coolers, shovels, and materials for the job.
2,000 lb PE Stamp certified load-rated deck.

Double Etrac for tie down points, ladder hooks, and anything else you can imagine.

Heavy Duty Utility Gate, keeps items on the deck contained in transit and can easily be removed with quick release cables and hinges.

BELOW DECK STORAGE

Great for secure storage of larger items like table saws, generators, or pack out boxes.
Adjustable rear flange seals to the factory tailgate.
Factory truck tailgate secures the area to create water-resistant secure storage below.

WHY CHOOSE A **UTILITY DECK** OVER A COOKIE-CUTTER SERVICE BODY?

MORE STORAGE

2.5X as much secured storage compared to a service body by gaining secure storage under the deck!

EXPANDED TRUCK OPTIONS

Available for all full-size pick-ups and bed lengths, even F150s. Stop waiting on cab and chassis supply chain issues.

2-HOUR NO DRILL INSTALL

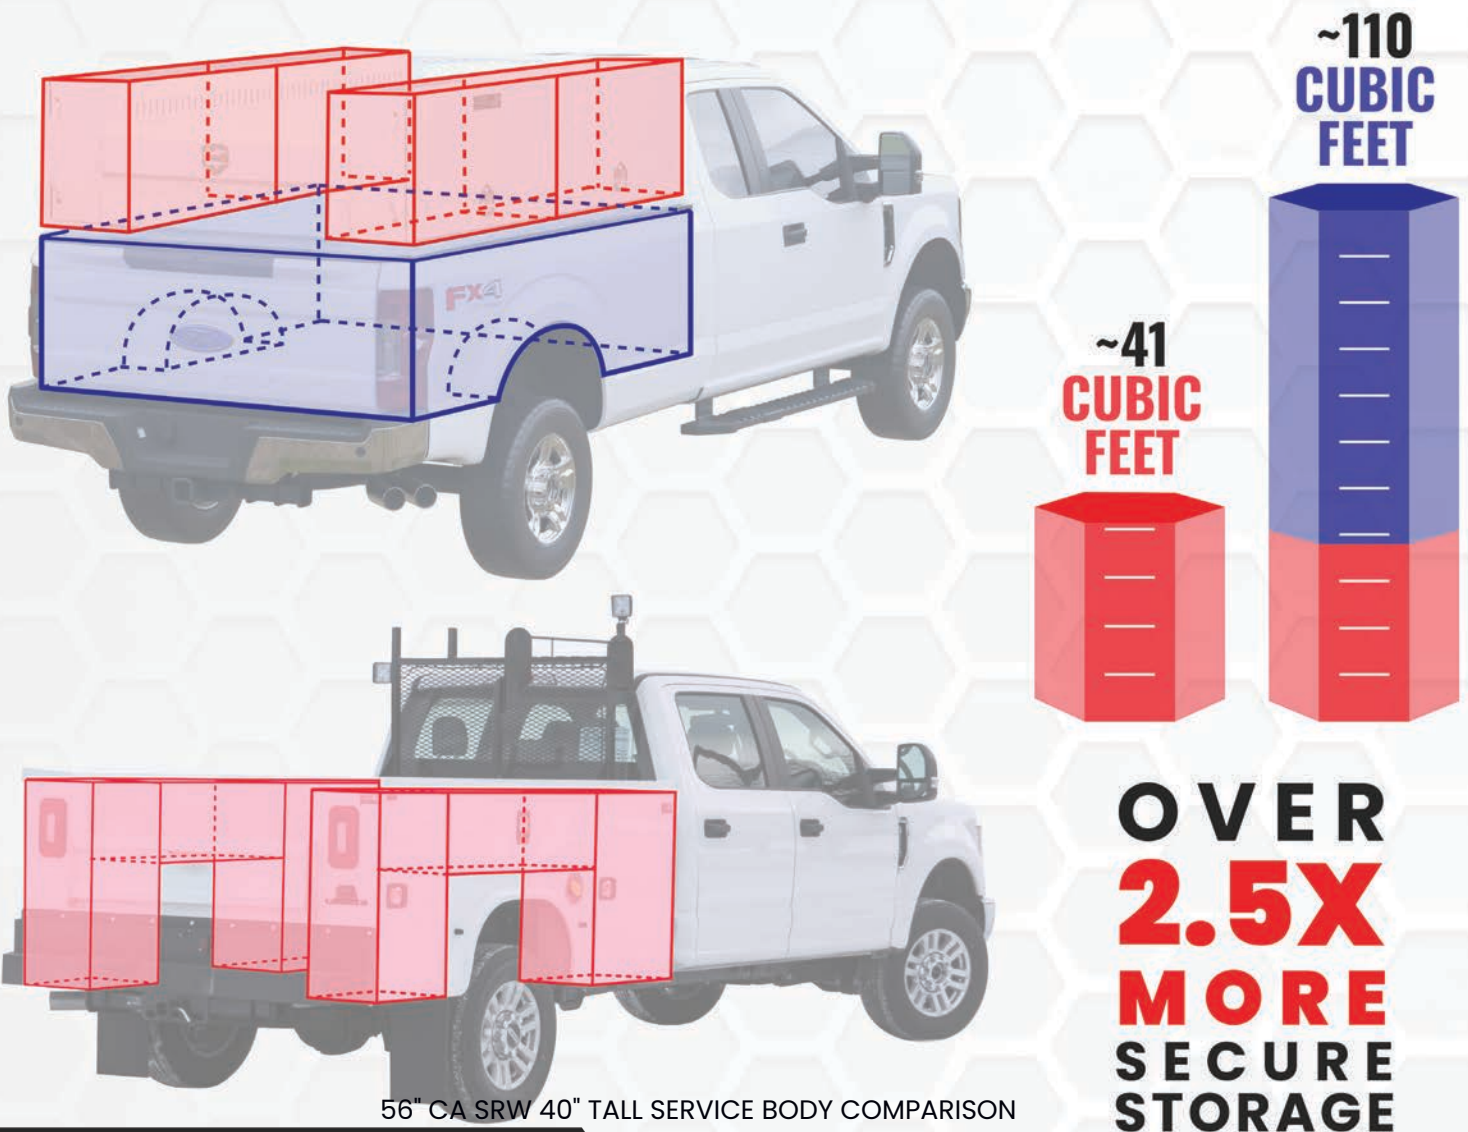

No truck modifications required. Retain all bed technology! Reduce down time!

SAVE MONEY

Lower overall price VS an aluminum service body. Vastly decreased installation costs. Quickly transfer to the next truck; stop throwing away assets.

PE STAMP CERTIFICATION

2,000 LB load rating, even with 1G lateral acceleration. Crash test ratings consistent with ford NHSTA Filing. Bottom Line: Don't worry about the Utility Deck, It's certified.

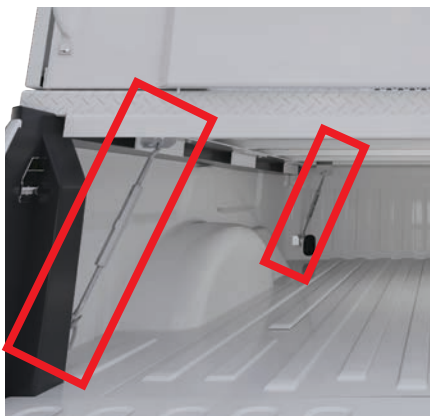

UTILITY DECK 2HR INSTALL

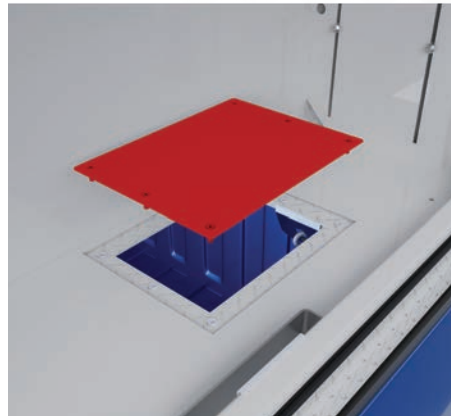

Compared to the time-consuming and intrusive process of a service body installation, the Utility Deck is the perfect alternative when reducing down-time and lowering install costs are your objective. **There is no need to remove your bed, reroute fuel lines, or run wiring for lights.** Factory sensors and cameras can remain in the original position, and you can even retain technology like BLIS systems, in-bed lighting, and inverters that would otherwise become obsolete with bed replacements.

The Utility Deck can be **installed on nearly all trucks**, even F150's and mid-size trucks, opening new options for maximum versatile storage capabilities on light-duty work trucks. With chassis cab's becoming harder to procure, and tighter restrictions being placed on larger trucks, the Utility Deck can expand your options for truck sourcing so you can quickly get your fleet on the road and to the job site.

FOUR TURNBUCKLES

The Utility Deck is installed with turnbuckles secured to each of the four tie downs in the corner of your factory bed.

ACCESS PANELS

Access panels under the front compartment boxes give easy-to-reach installation of the front turnbuckles to avoid crawling into your bed.

FOAM SEAL

Closed-cell foam prevents water from entering beneath the deck and above the bed rails, and a rear angle positioned below the Utility Gate seals against your factory bed's tailgate.

UPGRADE OPTIONS

CARGO RACK

Add overhead storage for ladders and materials. Hex punch tie downs run the length of the rack for accessible tie down points.

Removable cross bars allow for taller items to be transported on the Utility Deck.

TRUCK SLIDE

Keep your tools organized and accessible by sliding the contents of your bed to you rather than awkwardly reaching bending and crawling into your truck bed.

PE CERTIFICATION

What does this mean? Utility Decks on the weakest pickup trucks (sorry Ford guys) won't harm the bed, can handle 2,000 pounds in extreme driving situations, and meets crash test criteria similar to what Ford puts their vehicles through.

Audited by an independent Professional Structural Engineer, the Utility Deck has been scrutinized to meet Highway Products' highest level of standards for safety and quality. The certification ensures a 2,000 lb load rating in addition to the weight of the Utility Deck. That rating was based on the weaker aluminum beds on the market today and determined that the beds themselves won't buckle. Additionally, tested at full load at a 1G sideways acceleration, the pickup bed with the Utility Deck will continue to perform without failure. Finally, the Structural Engineer analyzed forward crash tests consistent with Ford's filing with the NHSTA, and confirmed the attachment points with the installation kit for the Utility Deck are sufficient.

BOTTOM LINE:

YOU DON'T HAVE TO WORRY ABOUT THE UTILITY DECK. IT'S CERTIFIED.

NEED SOMETHING DIFFERENT?

**WORK WITH A CUSTOM SPECIALIST AT HIGHWAY PRODUCTS
TO COMPLETELY CUSTOMIZE THE UTILITY DECK.**

Organize every square inch with a dedicated Engineer and make it perfect for you.

UNDERDECK STORAGE

Organize the secure storage beneath the deck with a completely custom solution designed and made for you. Add a customized Truck Slide, organizer, tool drawers, tank storage, or work with our team on a solution that works for you.

ENCLOSED STORAGE

Completely max out your secure storage with a commercial canopy style full enclosure. Add a Truck Slide within the enclosure or work with our engineers to create your own organization solution.

BOX MODIFICATION

The options for modification are in your hands. Change the sizes of the boxes to make a perfect fit for your storage needs. Add organization with dividers, custom shelving, or pull-out tool drawers. Add louvers or adjustable vents for fuel fumes.

OVERHEAD STORAGE

Customize overhead storage by modifying a cargo rack or lumber rack. You could add a passenger side single ladder rack and a basket for the drivers side. Highway Products will design exactly what you need.

WHAT IDEAS DO YOU HAVE?

CUSTOM SUGGESTIONS

BOX MODIFICATION

DOUBLE LIFT

SINGLE LIFT

The options for modification are in your hands. Change the sizes of the boxes or the door configuration to make a perfect fit for your storage needs. Add organization with dividers, custom shelving, or pull-out tool drawers. Add ventilation to the boxes for gas tanks.

BARN DOOR

TOOL DRAWERS

Accessible organization for small parts and fittings. Add adjustable or fixed dividers to create custom storage for your specific needs.

BULKHEADS AND SHELVES

Create custom organization with fixed bulkheads and shelves specific to your tools and gear.

LOUVRES AND VENTILATION

When storing fuel or gear that collects moisture you will want storage that breathes. Add louvers or adjustable vents for fuel fumes.

CUSTOM SUGGESTIONS

OVERHEAD STORAGE

BASKETS

Add baskets to the top of your utility boxes to create open top storage on either side of the Utility Deck. Hex punches along the baskets allow you to easily tie loads down or secure items directly to the basket.

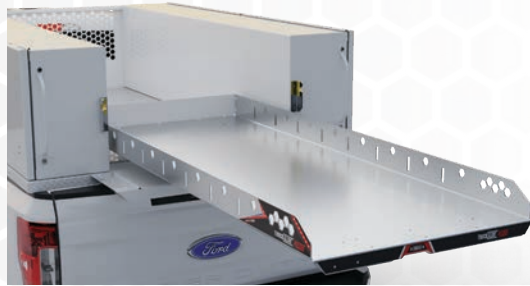

OVER CAB LUMBER RACK

Add forklift accessible storage with an over-the-cab heavy-duty lumber rack for lumber, pipes and more. The cross members of the lumber rack are removable for storage of taller items on the Utility Deck.

CUSTOM SUGGESTIONS

ABOVE DECK STORAGE

TRUCK SLIDES

Highway Products Truck Slides allow you to keep your feet safely on the ground while accessing the contents of the Utility Deck.

ENCLOSED STORAGE

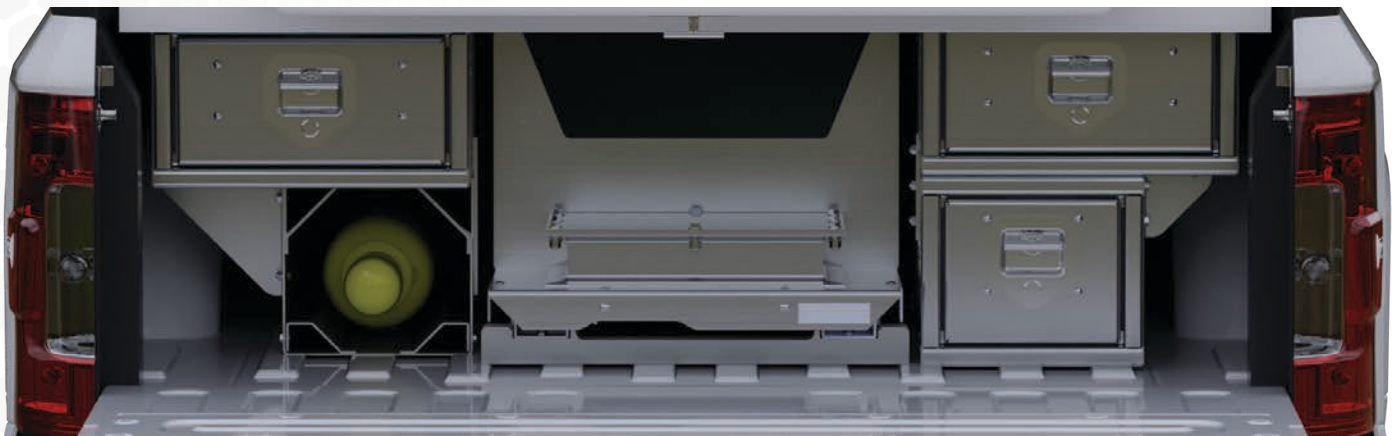

Secure the contents on the deck by enclosing the space between utility boxes.

BULKHEADS, SHELVES

Organize the space inside the enclosure by adding bulkheads and shelves to create a place for every tool.

BELOW DECK STORAGE

TANK HOLDER

Stow oxygen and other gas tanks beneath the Utility Deck and access easily when needed.

TRUCK SLIDE

Easily access the contents of your bed with your feet safely on the ground. Combine your Truck Slide with an organizer tray and vise mount to keep all your tools and equipment organized for the job site.

TRUCK DRAWER

A large enclosed pull-out drawer located beneath the Utility Deck delivers tons of organized, secure, and weatherproof storage. Add in removable dividers for next-level organization.

OUR MISSION

Passionately design and manufacture badass aluminum truck products in America.

OUR CORE VALUES

All decisions made at Highway Products are filtered through the ultimate prioritization of our three core values.

INTEGRITY

CUSTOMER FOCUS

EMPLOYEE SATISFACTION

PEACE OF MIND LIFETIME WARRANTY

If you have any issue with the workmanship of any product offered by Highway Products, give us a call and we'll get you taken care of. We even cover the components that we know fail over time, like gas shocks and weather stripping. We expect you to beat up our products and you can trust them to last. Other than finishes like paint and powder coat, and normal wear and tear like dings and dents, you can have the peace of mind in knowing you really have bought the last truck product you'll ever need to buy.

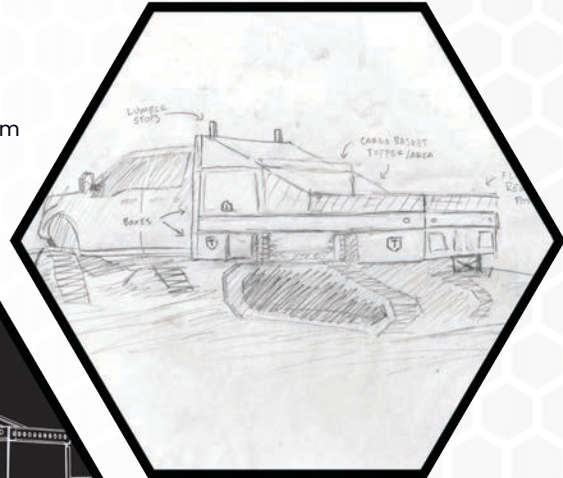

CUSTOMER VALUE PROPOSITION

Highway Products manufactures top of the line truck products that are designed for you and built to last forever.

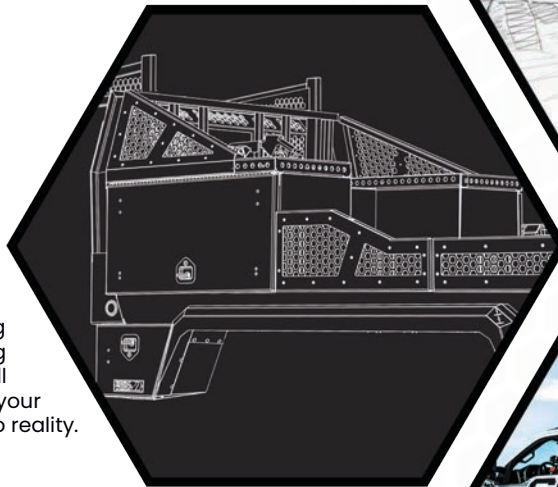

1 YOUR IDEA

It all starts with your vision and an HPI Custom Specialist that will track every detail.

2 TURNED INTO REALITY

An Engineer assigned to you, using 3D modeling software, will materialize your concept into reality.

3 BUILT TO LAST FOREVER

Over-engineered and overbuilt. Backed by a Lifetime Warranty. Custom you can Trust.

Since 1980 Highway Products has been producing custom aluminum products designed exactly to your specs. From Flatbeds to Boxes, we've delivered tens of thousands of one-off custom products. **It's what we specialize in.**
